

CHAPTER

14

Effects of Gamma-Irradiation and Ion Implantation in Chalcogenide Glasses

T.S. Kavetsky^{1,2}, A.L. Stepanov^{3,4,5}

¹Drohobych Ivan Franko State Pedagogical University, Drohobych, Ukraine

²The John Paul II Catholic University of Lublin, Lublin, Poland

³Russian Academy of Sciences, Kazan, Russian Federation

⁴Kazan Federal University, Kazan, Russian Federation

⁵Kazan National Research Technological University, Kazan, Russian Federation

OUTLINE

14.1 Introduction	342	14.3.4 Summary	353
14.2 Experimental	343	14.4 Effects of Ion Implantation in ChGs	353
14.2.1 Sample Preparation of ChGs	343	14.4.1 Characterization Techniques	353
14.2.2 Gamma-Irradiation of ChGs	343	14.4.2 Structure and Properties upon Ion Implantation	353
14.2.3 Ion Implantation of ChGs	344	14.4.3 Applications	354
14.3 Effects of Gamma-Irradiation in ChGs	344	14.4.4 Summary	355
14.3.1 Characterization Techniques	344	Acknowledgments	355
14.3.2 Structure and Properties upon Gamma-Irradiation	346	References	355
14.3.3 Applications	352
